To whom it may concern,

Re: Innovation for Maynooth Station

This letter is to express support for the Maynooth Train Station project. As MPP for Prince Edward-Hastings, I am continuously delighted to hear of the progress your group is making towards saving the historical Maynooth Train Station.

I believe historical landmarks, such as the Maynooth Train Station, are important to maintain as they are crucial keys to the history of our Province. By ensuring that local historical landmarks remain in our communities, we ensure that our children and grandchildren will not only grow up knowing the history, but being proud of it. The renovated train station will not be a historical landmark to admire, but has the potential to increase tourism within Maynooth.

The possibilities for the Maynooth Train Station are endless. I look forward to seeing the renovations that this dedicated group of volunteers are striving for. It's with great pride that I congratulate you on your recent accomplishments with this project, and wish you continued success.

Sincerely,

Todd Smith, MPP
Prince Edward-Hastings
